RE: Active Powersports – Mike Neal Letter of Reference

To: Whom it may concern:

This letter is written as a positive reference for Active Powersports.

Bracebridge Generation has engaged Active Powersports in a number of projects over the 7 years that I have been with Bracebridge Generation.

Projects have been varied, ranging from machining, fabrication, hydroelectric turbine repairs/installations, equipment decommissioning and equipment relocation.

We have always been satisfied with the work performed by Active Powersports. The quality is always excellent and work is performed as promised and on time.

If you would like additional information, please feel free to contact the undersigned.

Yours Truly

John Stasiuk, P.Eng
Generation Supervisor

To whom it may concern;

Active Powersports & Machine have been engaged by Peterborough Utilities Inc for the past several years to complete the turbine maintenance and other significant repairs at our hydro-electric facilities.

Our experience with Active Powersports has always been positive, and to our knowledge this company has a history of successfully completing projects.

Regards
